

“Alaska needs a bi-partisan legislature that works towards common goals for all Alaskans. I’m tired of the talk. We need results conceived from common sense, not partisan politics.”

## STATE HOUSE

### MY PRIORITIES ARE

#### 1) Affordable Energy

Fairbanks needs solutions. I'll work for energy infrastructure that includes a century of hydro-electric power from the Susitna Dam, Liquid Natural Gas from Prudhoe, Renewable Energy, and electricity from Healy Clean Coal Plant.

#### 2) Top-Notch Public Schools

Kindergarten through post-secondary education is where kids thrive and continue training for the jobs we create.

#### 3) Natural Resource Revenue

As "The Owner State," Alaskans should get their fair share of revenue from our natural resources and have a plan for our future.

#### 4) Minimum Wage Standards

I've been a wage earner most of my life and a union member for much of it. I support increasing the minimum wage, and I support jobs that pay a living wage - so we can put food on the table, a roof over our heads, and heat our homes.
